Modules on the following topics are collected in the following reference years:

(a) 'Labour force and other gainful activities' module for 2020, 2023 and 2026; (b) 'Rural development' module for 2020, 2023 and 2026; (c) 'Animal housing and manure management' module for 2020 and 2026; (d) 'Irrigation' module for 2023; (e) 'Soil management practices' module for 2023; (f) 'Machinery and equipment' module for 2023; (g) 'Orchard' module for 2023; (h) 'Vineyard' module for 2026. Member states with <1000 hectares of any of the individual crops referred to under detailed topics of the "Orchard" module do not collect data on this module. Similarly member states with <1000 hectares of vineyards do not collect data on "Vineyard" module. Member states with less than 2% irrigable area of the UAA, and with no NUTS 2 level regions with at least 5% of irrigated area of the UAA, are exempted from carrying out "Irrigation" module.

The data collection of modules may be carried out on samples of agricultural holdings. In that case Member States shall ensure that the weighted results are statistically representative of agricultural holdings within each region and are designed to meet the precision requirements.

The Commission may adopt implementing acts specifying the list of variables of the data to be provided for each module. (Differs by year)
